This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1 1. (currently amended) An image display method for 2 displaying description data including predefined attributes 3 each having text information and image information as an 4 attribute value described in a predetermined description 5 format, said image display method comprising the steps of: 6 extracting said attribute values from the description 7 data ; 8 listing the text information of the extracted attribute 9 values as alternative character strings to images 10 inline displayed in the description data; 11 selecting at least one attribute value from among the 12 listed attribute values; and 13 reading and displaying the image information specified by 14 the selected attribute value.
- 1 2. (canceled).
- 3. (original) The image display method as claimed in
 claim 1 wherein said step of listing the extracted attribute
 values lists file names indicating locations of images inline
 displayed in the description data.
- 4. (original) The image display method as claimed in claim 3 further comprising the steps of selecting a format of images inline displayed in the description data based on the attribute values and listing images in the selected file format.
- 5. (currently amended) A portable terminal comprising:

a display section for displaying description data

including predefined attributes each having text

information and image information as an attribute

value described in a predetermined description

format;

image selection and display means for extracting said attribute values from the description data and listing the text information of the extracted attribute values as alternative character strings to images inline displayed in the description data, and for selecting at least one attribute value from among the listed attribute values, reading the image information specified by the selected attribute value, and displaying the image information on the display section.

6. (canceled).

- 7. (original) The portable terminal as claimed in claim 5
 wherein the attribute values are file names indicating
 locations of images inline displayed in the description data.
- 8. (original) The portable terminal as claimed in claim 7 wherein further a format of images inline displayed in the description data is selected based on the attribute values, images in the selected file format are listed, and an image in any desired format is displayed on the display section.
- 9. (currently amended) A display method for displaying a representation of a document on a portable display, said document having one or more images, wherein the document is described in a data file using a predetermined description language including predefined attributes each having values of text information about one of the one or more images, said

Appl. No. 09/980,73 Amdt. Dated July 18, 2005 Reply to Office action of March 25, 2005

7 display method comprising the steps of: 8 extracting, from the data file, the corresponding 9 attribute values of text information for each of the 10 one or more images; 11 listing the corresponding attribute values of text 12 information on the display as alternatives to inline 13 images displayed in the description data; 14 selecting at least one of the listed attribute values; 15 and 16 displaying, on the portable display, image information 17 about the image corresponding to the selected 18 attribute value. 1 10. (canceled). 1 11. (previously presented) The method of claim 9, wherein 2 said image information includes a graphical representation of 3 the image. 1 12. (previously presented) The method of claim 9, wherein 2 said image information includes information about a file of 3 the image. 1 13. (previously presented) The method of claim 9, wherein 2 said image information includes an indication as to whether 3 the image can be displayed. 1 14. (currently amended) A method of displaying, on a 2 portable display, a web page described by one or more data 3 files, said web page having one or more images, said method 4 comprising the steps of: 5 extracting, from the one or more data files, 6 corresponding attribute values including textual 7 information for each of the one or more images;

Appl. No. 09/980,73 Amdt. Dated July 18, 2005 Reply to Office action of March 25, 2005

8 listing the corresponding attribute values on the 9 portable display as alternatives to inline images 10 displayed in the description data; 11 allowing a user to select one of the listed attribute 12 values; and 13 displaying, on the portable display, image information 14 about the image corresponding to the selected 15 attribute value, wherein said image information 16 includes a non-graphical representation of the 17 image.

- 1 15. (previously presented) The method of claim 14,
 2 wherein said non-graphical representation of the image
 3 includes a textual description of the image.
- 1 16. (previously presented) The method of claim 14,
 2 wherein said non-graphical representation of the image
 3 includes information about a file of the image.
- 1 17. (previously presented) The method of claim 14,
 2 wherein said image information further includes a graphical
 3 representation of the image.
- 1 18. (previously presented) The method of claim 14, 2 wherein said non-graphical representation of the image 3 includes an indication as to whether the image can be 4 displayed by the portable display.
